To the Community of Piedmont, Oklahoma:

The safety and welfare of Piedmont Community Park visitors, especially the children in the community, is the primary concern of the directors of the Piedmont Park Project. In response to a recently published article in a local news media regarding sensationalized accusations made by a contractor's attorney claiming that Piedmont Park Project failed to pay her client for work performed at Piedmont Community Park, please be advised:

This particular contractor, which was retained to complete certain improvements on the Piedmont Park Project, failed to perform as agreed. The contractor's attorney further admitted to her client's failure(s) in the article. Piedmont Park Project is more than prepared to demonstrate this contractor's breach of its obligations in a court of law should it become necessary to do so.

Sincerely,

Eric Anderson
Paul Francel
Rebecca Anderson
Tona McVicker
Phil Boevers
